

Billy Hill Gyp & Me: A Memoir

This is the memoir of Billy and Gyp Hill - Britains most successful criminal couple - and Justin, their only child. Billy was the Boss of Britains underworld. He introduced project crime to Britain and got clean away with the 1952 Eastcastle Street robbery even though the authorities knew that he did it. In 1956, he was at the centre of a phone tapping scandal that led to a Privy Council enquiry. When Billy published his memoir, the papers said there had been nothing like it since the days of Al Capone. Gyp was pure fire and beauty - she fought like a man and was the brains behind many of Billys crime successes, including scams to fleece the upper classes at Londons card tables. Mad Frankie Fraser said she was the best thing that happened to Billy. Glamorous Gyp travelled the globe in mink coats and diamonds, partied with celebrities (including the Rolling Stones) and ran a top nightclub in Tangier - with the chief of police as her minder - before retiring to become Justins mother and raise him as a law-abiding citizen. She taught him many of her old school values. Billy and Gyps last fight with the law was to rescue Justin from an abusive childrens home after his birth mother died. Justin saw a lot of his dad before he passed away in 1984 and Gyp told him many stories of their times together. Justin has combined these and his own memories with extensive research to bring you this story of his family.
