

# The Solomon Series: Great Pyramid Mystery Resolved: Patent Pending

This is volume three of the Resolving the Mystery series. Whidden continues exploring and exposing fact and fictions in this book completing many of the Great Pyramid Mystery issues. This version brings together a number of issues from the first two making a fabric of truth that helps one to see the consistency in this approach.

This volume is well known for the patents/patent pending ideas for perpetual motion derived from the study. As before by fleshing out many ideas and concepts of those who went before we find that some of what has been proposed is simply not possible or probable. By moving through a number of common ideas we factor concepts in or out and come up with an amazing set of discoveries that are plausible, practical, and reasonable. In 2006 prior to a terrible accident we were conducting archaeology studies in to ancient building techniques, old world empires, and the powers behind them. Some have referred to these studies as Alchemy. Some have alluded to Illuminati and One World Order cover-ups and revelations. Bottom line as it appears is that virtually everything we as a population have ever been told about these ancient societies and these structures (pyramids) has been twisted by folks on a fanciful lark.

They either thought many were too poor to travel there on their own, or too enamored with the fanciful to check the facts. This series of books was being prepared for a separate release in 2010 when Ted Whidden was in a tragic accident. The wreck and associated brain injuries eventually launched a radical reformation of health approach presented at [www.TheBrainCan.com](http://www.TheBrainCan.com), but before this occurred Whidden was working on unveiling secrets of the ancients. Some feel Whiddens accident was an attempt to stop him from putting forward radical truths of the ancients. Fortunately for 100s of millions of people the basic analytical

style the team uses in this pyramid series was applied to auto-immune disorders and a host of other ailments. See where the foundations of the universe lead when one gets fundamentally grounded in truth. The first three in this series (Volume One, Two, and Three) are being released at the [www.TheBrainCan.com](http://www.TheBrainCan.com) to give Whidden a boost in his recovery. Thank you for your patience as this data has been buried during a long recovery. Each pyramid book is in electronic form and consists of 200-250 pages. In order to fully understand the process you will need all three books. Incentives may be made available in the books to share the concept and site with others.
