

Love is... Pain: Memoirs of love

This is a poignant and raw read that explores the depth of love, loss, and gratitude. Through memoirs and poetry, Tonya Smith examines why she related love so much with pain, stemming from her childhood. After truly falling in love, she questioned the role she played in her unsuccessful relationships of the past. Was she fair, did she seem heartless, why didn't they work? Was it them? She needed help; she needed answers because she couldn't figure it out or make any sense of it. Love only comes around once, but how could the most beautiful feeling that ever roamed her soul cause her to panic and run in fear? She twisted the mirror around and took a deep look at herself; was it her? Still no clear answers and there was nowhere else to run. So, she divulged back into the writing she'd given up many years ago to help her understand who and what she and others were dealing with. She had to relive some of the most painful memories of her life and as she walked the path of her yesterdays, and type the words written by the poor little kid, the lost teenager and fragile adult; would she discover answers, and unveil truths she didn't know existed.
