

Ravished (A Novella)

Nelli Walzchak was a no-nonsense nurse at Kansas General Hospital, but her personal life was virtually nonexistent ... until an enforced Mexican vacation altered her life's course - and she found herself kidnapped by a dashing buccaneer and learned that ravished could mean, quite literally, not to take away by violence but most definitely to fill with pleasure.

Ravish has 416 ratings and 53 reviews. It would have been better in novella length, with the plot tighter and faster and with fewer of the repetitious steamy Paranormal Romance: Ravished by the Dragon (Shapeshifter Novella) (New Adult Fantasy) - Kindle edition by Olivia Myers.
