

The Road to San Giovanni (Penguin Modern Classics)

In five elegant autobiographical meditations Calvino delves into his past, remembering awkward childhood walks with his father, a lifelong obsession with the cinema and fighting in the Italian Resistance against the Fascists. He also muses on the social contracts, language and sensations associated with emptying the kitchen rubbish and the shape he would, if asked, consider the world. These reflections on the nature of memory itself are engaging, witty, and lit through with Calvino's alchemical brilliance. Italo Calvino, one of Italy's finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include *Cosmicomics* (1968), *Invisible Cities* (1972), and *If on a winter's night a traveler* (1979). He died in Siena in 1985, of a brain hemorrhage.
