

The Works of John Locke, Vol. 5 of 9 (Classic Reprint)

Letter concerning Toleration, first printed in Latin this very year, in Holland, has already been translated both into Dutch and French. So general and speedy an approbation may therefore bespeak its favourable reception in England. I think indeed there is no nation under heaven, in which so much has already been laid upon that subject, as ours. But yet certainly there is no people that stand in more need of having something further both laid and done amongst them, in this point, than we do. Our government has not only been partial in matters of religion ;but those also who have suffered under that partiality, and have therefore endeavoured by their writings to vindicate their own rights and liberties, have for the most part done it upon narrow principles, suited only to the interests of their own feels. This narrowness of spirit on all sides has undoubtedly been the principal occasion of our miseries and confusions. But whatever have been the occasions, it is now high time to seek for a thorough cure. We have need of more generous remedies than what have yet been made use of in our distemper.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
